Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

- 1. 97. (Canceled)
- 98. (New) An isolated polypeptide selected from the group consisting of:
 - (a) a polypeptide comprising an amino acid sequence selected from the group consisting of SEQ ID NO: 6 and SEQ ID NO: 8;
 - (b) a biologically active fragment of the polypeptide of (a); and
 - (c) an immunogenic fragment of the polypeptide of (a).
- 99. (New) An isolated polypeptide of claim 98 consisting of the polypeptide of (a), wherein the polypeptide comprises the amino acid sequence of SEQ ID NO: 6.
- 100. (New) An isolated polypeptide of claim 98 consisting of the polypeptide of (a), wherein the polypeptide comprises the amino acid sequence of SEO ID NO: 8.
- 101. (New) An isolated polypeptide of claim 98 consisting of a biologically active fragment of the polypeptide of (a).
- 102. (New) An isolated polypeptide of claim 98 consisting of an immunogenic fragment of the polypeptide of (a).
- 103. (New) An isolated polypeptide of claim 98 encoded by a polynucleotide selected from the group consisting of:
 - (i) a polynucleotide comprising a polynucleotide sequence of SEQ ID NO: 27;
 - (ii) a polynucleotide comprising a naturally occurring polynucleotide sequence at least 90% identical to SEQ ID NO: 27;
 - (iii) a polynucleotide comprising a portion of the polynucleotide sequence of SEQ ID NO: 27 that specifically identifies SEQ ID NO: 27.
 - (iv) a polynucleotide comprising a polynucleotide complementary to the polynucleotide of (i), (ii), or (iii);

- (v) an RNA equivalent of the polynucleotide of (i), (ii), (iii) or (iv);
 - (vi) a polynucleotide of (i), (ii) or (iii) further comprising a promoter sequence operably linked to said polynucleotide of (i), (ii) or (iii).
- 104. (New) An isolated polypeptide of claim 98 encoded by a polynucleotide selected from the group consisting of:
 - (i) a polynucleotide comprising a polynucleotide sequence of SEQ ID NO: 29;
 - (ii) a polynucleotide comprising a naturally occurring polynucleotide sequence at least 90% identical to SEQ ID NO: 29;
 - (iii) a polynucleotide comprising a portion of the polynucleotide sequence of SEQ ID NO: 29 that specifically identifies SEQ ID NO: 29.
 - (iv) a polynucleotide comprising a polynucleotide complementary to the polynucleotide of (i), (ii), or (iii);
 - (v) an RNA equivalent of the polynucleotide of (i), (ii), (iii) or (iv);
 - (vi) a polynucleotide of (i), (ii) or (iii) further comprising a promoter sequence operably linked to said polynucleotide of (i), (ii) or (iii).
- 105. (New) An isolated polypeptide of claim 98 produced recombinantly.
- 106. (New) An isolated polypeptide of claim 103 produced by culturing a cell transformed with a polynucleotide of (iv) under conditions suitable for expression of the polypeptide, and recovering the polypeptide so expressed.
- 107. (New) An isolated polypeptide of claim 104 produced by culturing a cell transformed with a polynucleotide of (iv) under conditions suitable for expression of the polypeptide, and recovering the polypeptide so expressed.
- 108. (New) An isolated antibody that specifically binds to a polypeptide of claim 98.
- 109. (New) An isolated antibody of claim 108, wherein said antibody is selected from the group consisting of a polyclonal antibody, a monoclonal antibody, a chimeric antibody, a single chain antibody, a Fab fragment, a F(ab')₂ fragment, and a humanized antibody.

- 110. (New) An isolated antibody of claim 108, wherein said antibody is selected by screening a recombinant immunoglobulin library.
- 111. (New) An isolated antibody of claim 108, wherein said antibody is selected by screening a Fab expression library.
- 112. (New) An isolated antibody that specifically binds to a polypeptide of claim 103.
- 113. (New) An isolated antibody that specifically binds to a polypeptide of claim 104.
- 114. (New) An isolated antibody of claim 112, wherein said antibody is selected from the group consisting of a polyclonal antibody, a monoclonal antibody, a chimeric antibody, a single chain antibody, a Fab fragment, a F(ab')₂ fragment, and a humanized antibody.
- 115. (New) An isolated antibody of claim 113, wherein said antibody is selected from the group consisting of a polyclonal antibody, a monoclonal antibody, a chimeric antibody, a single chain antibody, a Fab fragment, a F(ab')₂ fragment, and a humanized antibody.
- 116. (New) A method of detecting a polypeptide of interest in a sample, comprising: incubating the sample with an antibody that specifically binds to a polypeptide of claim 98 under conditions suitable for binding of the antibody to the polypeptide of interest if present in the sample; and

detecting biding of the polypeptide of interest to the antibody, wherein binding indicates the presence or amount of the polypeptide of interest in the sample.

- 117. (New) A method of claim 116, wherein the sample is a body fluid sample from a human.
- 118. (New) An isolated polynucleotide selected from the group consisting of:
 - (i) a polynucleotide comprising a polynucleotide sequence of SEQ ID NO: 27;
 - (ii) a polynucleotide comprising a naturally occurring polynucleotide sequence at least 90% identical to SEQ ID NO: 27;
 - (iii) a polynucleotide comprising a portion of the polynucleotide sequence of SEQ ID NO: 27 that specifically identifies SEQ ID NO: 27.

- (iv) a polynucleotide comprising a polynucleotide complementary to the polynucleotide of (i), (ii), or (iii);
- (v) an RNA equivalent of the polynucleotide of (i), (ii), (iii) or (iv);
 - (vi) a polynucleotide of (i), (ii) or (iii) further comprising a promoter sequence operably linked to said polynucleotide of (i), (ii) or (iii).
- 119. (New) An isolated polynucleotide selected from the group consisting of:
 - (i) a polynucleotide comprising a polynucleotide sequence of SEQ ID NO: 29;
 - (ii) a polynucleotide comprising a naturally occurring polynucleotide sequence at least 90% identical to SEQ ID NO: 29;
 - (iii) a polynucleotide comprising a portion of the polynucleotide sequence of SEQ ID NO: 29 that specifically identifies SEQ ID NO: 29.
 - (iv) a polynucleotide comprising a polynucleotide complementary to the polynucleotide of (i), (ii), or (iii);
 - (v) an RNA equivalent of the polynucleotide of (i), (ii), (iii) or (iv);
 - (vi) a polynucleotide of (i), (ii) or (iii) further comprising a promoter sequence operably linked to said polynucleotide of (i), (ii) or (iii).
